Dear Friends and Coworkers in Ministry,

While the production and use of pornography has always been a social problem, the internet and mobile technology has increased its use and has grown exponentially to a point where some have even described it as a public health crisis.

As Archbishop Joseph Naumann, Archbishop of Kansas City in Kansas, stated in his attached letter, internet pornography has become an attack on a generation which has negatively impacted the majority of youth in our parishes and schools.

The Church cannot be silent in the face of this epic problem. To this end, I am also attaching a flyer that details a free webinar entitled *Parents, Kids and Pornography: The Attack on a Generation*.

Please consider promoting this webinar to your constituencies.

If you have any questions please do not hesitate to contact me.

Thank you for your thoughtful consideration of this request.

Sincerely,

Steven Bozza,
Director
